Deliverable E3_D3: Informative video

An informative video was developed in collaboration with Europa Direct Province of Antwerp, an information centre about Europe. They were looking for interesting projects to show in an easily accessible way the importance of Europe and they were very pleased to get the opportunity to put Life ACLIMA in the picture. By joining forces we expanded the opportunities and were able to extend our reach. In the video the coordinator Joris De Nies gives a broad overview of the project Life ACLIMA. Additionally, an action at research centre for vegetables and some actions at the experimental poultry centre are explained into in more detail. The video is shared on social media and on the website and is used as educational material. It has already more than 2600 views (YouTube). The video is also shared at our website www.lifeaclima.eu
